

VANGUARD LIFEBOAT – THE ONLY SURVIVAL EQUIPMENT MANUFACTURER FROM ASIA TO ENTER ONGC’S VENDOR LIST

Despite a subdued environment in the marine and oil and gas industry, it seems to be a good start this year for Vanguard Lifeboat.

In early 2017, Vanguard Lifeboat was informed that it has successfully entered the vendor list for Oil and Natural Gas Corporation Limited (ONGC). We are one of three candidates that has been selected to supply life-saving equipment to all of ONGC’s shipbuilding projects.

ONGC is the largest state-owned producer of crude oil and natural gas in India, contributing around 70 per cent of India’s domestic production and, it ranks 14th in ‘Oil and Gas operations’ and 220th overall in Forbes Global 2000. As the India’s demand in energy grow rapidly, ONGC will maintain its presence in offshore oil & gas exploration and production activities in order to satisfy the market needs.

Vanguard Lifeboat is honoured to be the only survival equipment manufacturer from Asia that is in ONGC’s vendor list. The company’s successful entry into OGC’s vendor list was based on the company’s market leadership, including its ability to deliver quality products and services, comprehensive worldwide service network and competitive pricing. With this admission, Vanguard Lifeboat will be able to participate in all ONGC’s bidding projects for supplying life-saving equipment on board vessels. The company is able to provide totally-enclosed lifeboat, fast rescue boat and davit systems.

Making it into the vendor list is a great recognition for the work and efforts the company has done. At Vanguard Lifeboat, we always strive to deliver high quality products and services to the industry and there is a sense of dedication to fulfil all customers' needs and wants. Vanguard Lifeboat is looking forward to the opportunity to work with ONGC in the coming future. The team is ready for all the tasks and challenges that may come with it, which will boost the team's overall capabilities.

ABOUT VANGUARD LIFEBOAT

Based in Singapore, VANGUARD LIFEBOAT is a wholly owned subsidiary of Malaysian based integrated engineering solutions provider DESTINI BERHAD.

VANGUARD LIFEBOAT has made a name for itself as a trusted and reliable global lifeboat brand. The Company manufactures conventional and hyperbaric lifeboats, fast rescue boats, davit systems and a host of other safety equipment for the marine and oil and gas industries.
